

Instructions:

This test is just for fun.

1. Print the following page. Find out how you do.
2. Print as many additional copies as you want and give them to all your friends. See how they do.

INTELLIGENCE TEST

1. Read everything before doing anything.
2. Write your name in the upper right corner of the page.
3. Count the number of words in the text of Question 2 and write the answer here: ____.
4. In the right margin, draw a triangle containing a circle containing a square, and inside the square write the answer to the previous question.
5. Fold this page into three equal parts longitudinally, crease the folds, and then unfold the page. Then count the number of *whole* words of Question 4 between the left and right creases. Write the answer here: ____.
6. Draw a line through the text of the next line of this question, beginning approximately in the middle and going outward from the center in opposite directions to each end.
7. Find the one word in Question 6 that is most directly above this ↑ and write the answer here: _____.
8. Determine which question from Question 4 to Question 7 inclusive contains a word of *more* than three syllables, and write the number of that question here: ____.
9. Subtract 2 from the answer to Question 8 and write the result here: _____. Then check that many of the following boxes, beginning from the right:
□□□□□□□□
10. Find the fifth word of the second line of the previous question and subtract from its end as many letters as boxes were checked. Write the word here: _____.
11. Write the answer to Question 10 in the first blank below. Write the answer to Question 7 in the second blank below.
12. _____ all _____.
13. Now that you have read through all the questions without doing anything, you have passed the test; so write your name on the top of the page.
